 84. **Albayrak, I.**, Lemmin, U. (2006). The scour-hole problem due to sluice gates: quadrant analysis of the turbulence characteristics in the presence of Görtler vortices. In *Proc. of International Conference on Fluvial Hydraulics* (River Flow 2006), Lisbon, Portugal.
 85. **Albayrak, I. (2006)**. An experimental study of coherent structures, secondary flows and surface boils and their interrelation in open-channel flow. *Master Class, International Conference on Fluvial Hydraulics* (River Flow 2006), Lisbon, Portugal.
 86. Cokgor, S., **Albayrak, I. (2005)**. Suction Removal of non-uniform sediment from between armor blocks. In *Proc. of II. National Water Engineering symposium*, Gumuldur, Izmir, Turkey.
 87. Cokgor S., **Albayrak I. (2005)**. The spatial in-homogeneity of turbulence over large relative random roughness in open-channel flow. In *Proc. of II. National Water Engineering symposium*, Gumuldur, Izmir, Turkey.

Patents and licenses

A patent application of our recently developed '[Fish Guidance Structure with Innovative Curved-Bars \(FIGUS\)](#)' for safe downstream fish migration at water intakes and hydropower plants has been submitted to the European Patent Office (Patent application number: EP21155988.5). The inventors of the FIGUS are Dr. Claudia Beck (former PhD student), **Dr. Ismail Albayrak**, Prof. Dr. Robert Boes, Dr. David Vetsch, Claudia Leuch, Res Lütschg and Tobias Rüesch.

Presentations

1. Downstream fish passage at Hydropower Plant Laudal on River Mandal in Norway. Workshop "Lösungen für Fischschutz und Fischabstieg", Innsbruck, Österreich, 22.09.2023.
2. *Efficiency Evaluation of Solis Sediment Bypass Tunnel in Switzerland*. 40th IAHR World Congress, Vienna, Austria, 23.08.2023.
3. Live-fish tests of turbulent eddy generating elements. *FishPath workshop*, Zurich, Switzerland, 28 April 2022.
4. Development of Low-Voltage Electrified Fish Guidance Racks for Safe Downstream Fish Migration. In *Proc. of the 39th IAHR World Congress*, 19–24 June 2022, Granada, Spain, 2022.
5. Swiss Sediment Bypass Tunnels, 1st IAHR Online forum: *Hydro-Environmental Challenges, Solutions and Trends for Water Security*, webinar, July 2021.
6. Ergebnisse des EU Horizon 2020 Projektes „FITHYDRO“ (Results from EU Horizon 2020 project of FIThydro). Webinar on ‘Fish protection and fish downstream migration at large hydropower plant: sharing of experiences and knowledge’ organized by International Commission for the Protection of

- the Rhine, 16 September **2021**.
7. Determining minimum number of transects for accurate flow measurements using moving vessel ADCPs. *13th Symposium on Ultrasonic Doppler Methods for Fluid Mechanics and Fluid Engineering*, Zurich, Switzerland, 14 June **2021**.
 8. Cost-effective and applicable solutions for hydropower impacts on downstream migration. *FIThydro European Stakeholder Workshop on Fish-Friendly Hydropower*, Brussels, Belgium, 29 January **2020**.
 9. Concept for the development of fish passage facility using ADCP, numerical modelling and fish monitoring. *FIThydro European Stakeholder Workshop on Fish-Friendly Hydropower*, Brussels, Belgium, 29 January **2020**.
 10. Bed-load diversion with a vortex tube system. *The 38th IAHR World Congress*, Panama City, Panama, **2019**.
 11. Requirements for monitoring from a hydraulic-constructive and fish-biological point of view. *Workshop on fish protection and downstream fish migration at hydroelectric power plants - New research approaches (VAW & Wasser Agenda 21)*, Zurich, Switzerland, **2019**.
 12. FIThydro studies in Switzerland. *Workshop on fish passage, Safepass - FIThydro*, Zurich, Switzerland, **2019**.
 13. Overview of VAW's BFE research projects. *Mini-workshop on energy research (VAW & BFE)*, Zurich, Switzerland, **2019**.
 14. 3D fish tracking system. *4th General Assembly of FIThydro*, Trondheim, Norway, **2019**.
 15. Vortex tube study results from Schiffmühle. *4th General Assembly of FIThydro*, Trondheim, Norway, **2019**.
 16. Specific design of two exemplary sediment bypass tunnels. *Workshop: Combined sediment and fish bypass solutions, win-win?*, Trondheim, Norway, 2019.
 17. Overview on VAW's research on sediment management at hydropower plants and sediment bypass tunnels. *Mini-workshop on Sediment Management at Hydropower Plants & Dams (VAW & HydroSediNet organized by World Bank)*, Zurich, Switzerland, **2019**.
 18. Efficiency evaluation of Swiss Sediment Bypass Tunnels. *3rd International Wokshop on Sediment Bypass Tunnels*, Taipei, Taiwan, **2019**.
 19. Specific design of two exemplary sediment bypass tunnels. *Workshop: Combined sediment and fish bypass solutions, win-win?*, Trondheim, Norway, **2019**.
 20. Fish guidance structures at hydropower plants. *Workshop: Combined sediment and fish bypass solutions, win-win?*, Trondheim, Norway, **2019**.
 21. Field experiences with an ADCP mounted on a remotely operated boat. *FIThydro Measurement Workshop*, Lisbon, Portugal, **2019**.
 22. 3D fish tracking system for etho-hydraulic investigations. *FIThydro Measurement Workshop*, Lisbon, Portugal, **2019**.
 23. Downstream fish passage at hydropower plants by fish guidance structures. *Hydro 2018 Conference*, Gdansk, Poland, **2018**.
 24. FIThydro activities related to downstream fish migration for medium-to-large hydropower plans. *Alpine*

- Stakeholder Workshop, Augsburg, Germany, 2018.*
25. Fish downstream fish migration: significance and concepts. *3rd General Assembly of FIThydro*, Zurich, Switzerland, **2018**.
26. Calibration of Swiss Plate Geophone System for bedload monitoring in a sediment bypass tunnel. *2nd Intl. Workshop on Sediment Bypass Tunnels*, Kyoto, Japan, **2017**.
27. Fish guidance structures: new head loss formula and fish guidance efficiencies. *The 37th IAHR World Congress*, Kuala Lumpur, Malaysia, **2017**.
28. Field calibration of bedload monitoring system in a sediment bypass tunnel: Swiss plate geophone. *The 37th IAHR World Congress*, Kuala Lumpur, Malaysia, **2017**.
29. Addressing downstream impact of sediment management on reservoirs. *2nd General Assembly of FIThydro*, Poitiers, France, **2017**.
30. Solutions for downstream migration. *2nd General Assembly of FIThydro*, Poitiers, France, **2017**.
31. Horizon 2020: FIThydro. *Meeting at TU-Darmstadt*, Darmstadt, Germany, **2017**.
32. Horizon 2020: FIThydro. *Meeting at Bundesanstalt für Wasserbau (BAW)*, Karlsruhe, Germany, **2017**.
33. Horizon 2020: FIThydro. *Wasser-Agenda 21. Informations- und Erfahrungsaustausch zur Sanierung Fischgängigkeit*, Bern, Switzerland, **2017**.
34. Field calibration of bedload monitoring system in a sediment bypass tunnel: Swiss plate geophone. *The 13th International Symposium on River Sedimentation*, Stuttgart, Germany, **2016**.
35. Real-time measurements of suspended sediment concentration and particle size using five techniques. *The 28th IAHR Symposium on Hydraulic Machinery and Systems*, Grenoble, France, **2016**.
36. Research on downstream fish passage technologies in Switzerland. *Workshop on fish passage and migration*, Istanbul, Turkey, **2016**.
37. Current sedimentation research at VAW. *First International Workshop on Sediment Bypass Tunnels*, VAW, ETH Zurich, Zurich, Switzerland, **2015**.
38. Flow fields around fish guidance structures. *The 36th IAHR World Congress*, The Hague, the Netherlands, **2015**.
39. Turbulent flow field around angled bar racks. *Fish Passage 2015*, Groningen, the Netherlands, **2015**.
40. Suspended sediment and bed load transport monitoring techniques. *The 38th Dresdner Wasserbaukolloquium*, Dresden, Germany, **2015**.
41. Field measurements of suspended sediments using several methods. *The 36th IAHR World Congress*, The Hague, Netherlands, **2015**.
42. Sediment handling at hydropower schemes: Current research at VAW. *Seminar on Sediment Challenges and Sediment Handling Strategies in Hydro Power organized by Statkraft, Norwegian Hydropower Centre (NVKS) and Norwegian University of Science and Technology (NTNU)*, Tirana, Albania, **2015**.
43. Sediment bypass tunnels: Hydro-abrasion and sediment transport measurements. *Seminar on*

- Sediment Challenges and Sediment Handling Strategies in Hydro Power organized by Statkraft, Norwegian Hydropower Centre (NVKS) and Norwegian University of Science and Technology (NTNU), Tirana, Albania, 2015.*
44. Hydraulics and efficiency of fish guidance structures. *Colloquium "Meet and Share Your Research Day" organized by ASB (Association of Academic Staff at D-BAUG) und Departement Bau, Umwelt und Geomatik, ETH Zürich, Zürich, Switzerland, 2015.*
 45. Upstream and downstream fish passage technologies. *Workshop on fish passages at hydropower plants, Rize Univesity, Rize, Turkey, 2015.*
 46. Turbulent flow field around angled bar racks. *Yellow Colloquium, VAW, ETH Zurich, Zurich, Switzerland, 2015.*
 47. Monitoring of suspended sediment – Laboratory tests and case study in the Swiss Alps. *12th International symposium on River Sedimentation (ISRS 2013), Kyoto, Japan, 2013.*
 48. Supercritical flow in sediment bypass tunnels. *12th International symposium on River Sedimentation (ISRS 2013), Kyoto, Japan, 2013.*
 49. Interactions between flow and plant leaves, stems, and shoots. *9th International Symposium on Ecohydraulics (ISE), Vienna, Austria, 2012.*
 50. The physical mechanisms of drag control by aquatic plants in flowing water at leaf and shoot scales. *Seminar for doctoral students, VAW, ETH Zurich, Zurich, Switzerland, 2011.*
 51. Physical mechanisms of drag reduction by aquatic plants in flowing water at leaf and shoot scales. *24th annual Scottish Fluid Mechanics Meeting, Glasgow, Scotland, UK, 2011.*
 52. Flow-Plant Interaction at a Leaf Scale: Effects of Leaf Shape and Flexural Rigidity. *International Conference of Fluvial Hydraulics (River Flow 2010), Braunschweig, Germany, 2010.*
 53. Effects of plant leaf shape on drag forces imposed by water flow. *First IAHR European Congress, Edinburgh, Scotland, UK, 2010.*
 54. A study of open-channel surface flow dynamics using large scale particle image velocimetry. *International Conference on Fluvial Hydraulics (River Flow 2008), Izmir, Turkey, 2008.*
 55. The effect of water depth on the dynamics of secondary currents in turbulent open-channel flow over a rough bed. *International Conference on Fluvial Hydraulics (River Flow 2008), Izmir, Turkey, 2008.*
 56. Secondary currents and coherent structures, their distribution across section and their relation to surface boils in turbulent gravel-bed open-channel flow. *The Fifth International Symposium on Environmental Hydraulics (ISEH V), Tempe, Arizona, the Grand Canyon State, USA, 2007.*
 57. **Albayrak, I., Lemmin, U. (2007).** Large scale PIV-measurements on the water surface of turbulent open-channel flow. *18ème Congrès Français de Mécanique, Grenoble, France.*
 58. Secondary currents and coherent structures, their distribution across a cross section and their relation to surface boils in turbulent gravel-bed open-channel flow. *32nd Congress of IAHR, John F. Kennedy student competition, Venice, Italy, 2007.*
 59. Dynamics of secondary currents and surface boils in turbulent open-channel flow revealed by surface particle image velocity measurements. *The 32nd Congress of IAHR, Venice, Italy, 2007.*
 60. The scour-hole problem due to sluice gates: quadrant analysis of the turbulence characteristics in the presence of Görtler vortices. *International Conference on Fluvial Hydraulics (River Flow 2006), Lisbon,*

Portugal, **2006**.

61. An experimental study of coherent structures, secondary flows and surface boils and their interrelation in open-channel flow. *Master Class, International Conference on Fluvial Hydraulics* (River Flow 2006), Lisbon, Portugal, **2006**.

Outreach activities

1. FishPath project on SFR Scheiz Aktuell: [Schweiz aktuell vom 16.10.2023 - Play SRF](#)
2. Safe Harbour for Migrating Fish and Cleaner Sustainable Energy, published on the international blog of in the field stories, <https://www.inthefieldstories.net/safe-harbour-for-migrating-fish-and-cleaner-sustainable-energy/> **2021**.
3. Towards more fish-friendly hydropower plants, [ETH Zurich Press release, 2021](#).
4. Felix D., Abgottspö A., **Albayrak I.**, Staubli T., Gruber P., Boes R. (**2020**). Schwebstoffmonitoring in Echtzeit (Suspended sediment monitoring in real time). [Bulletin SEV/VSE](#), 2/2020, 41-44.
5. Measures to facilitate safe downstream fish migration at run-of-river hydropower plants, [Rundschau TV program in Swiss Television SRF \(in German\)](#), **2018**.
