

# Power and productivity for a better world

## Company Profile

ABB is the global leader in power and automation technologies. It was formed in 1988 by the merger of Swiss BBC and Swedish ASEA engineering companies. ABB employs about 117,000 employees in more than 100 countries in every region of the world. Today, ABB is one of the world's leading engineering companies, with the vision to help its customers to use energy more efficiently, to increase industrial productivity and to lower environmental impact in a sustainable way.

### Portfolio

ABB's portfolio includes: Power Products, Power Systems, Discrete Automation and Motion, Low Voltage Products, Process Automation. ABB's technology is used by top-level enterprises, in all important industries including oil and gas, power, chemicals and pharmaceuticals, pulp and paper, metals and minerals, marine and turbocharging. ABB also offers generation and transmission solutions for Hydro, Wind, Solar and Wave markets.

### Research & Development

More than \$1 billion is invested annually. 6,000 scientists and engineers focus on breakthrough developments including integrating renewable power sources into the grid, enhancing power network efficiency, reliability and flexibility. ABB collaborates with 70 universities such as MIT (US), Tsinghua (China), KTH Royal Institute of Technology (Sweden), Indian Institute of Science (Bangalore), ETH (Switzerland), Karlsruhe (Germany).

### Major projects

ABB in Greece has carried out projects relating to the Public Power Corporation (PPC) of Greece, public utilities companies, wind parks, industries, public constructions, hotels, hospitals, etc.

### ABB in Greece

In Greece and Cyprus, ABB SA engages in the entire spectrum of activities of the international Group: sales of equipment, study and implementation of projects, after-sales services. The company employs about 300 people in Athens, Piraeus and Thessaloniki. A very high proportion of the workforce (over 50%) holds university degrees and postgraduate qualifications.

### Working with ABB

As one of the world's most global and dynamic companies, ABB is unique in its multicultural environment and attitude. We are committed to attracting and retaining dedicated and skilled people, offering employees an attractive working environment and excellent development opportunities.

We encourage personal initiative and entrepreneurial behavior and we seek to offer challenging and rewarding work environment. Join us!
