

PPC S.A. CORPORATE PROFILE

Public Power Corporation was founded in 1950 with a view to formulating and implementing a national energy policy, which achieved electrification of Greece through the intensive exploitation of domestic resources.

As of 1.1.2001 it has been operating as a société anonyme, and it has been listed on the Athens and London Stock Exchanges since 12.12.2001.

Today PPC is operating in a liberalized market environment and is a fully vertically integrated company, covering the whole spectrum of activities in the electrical power field. With € 6.0 B turnover and total assets amounting to € 14.0 B, PPC holds a leading position not only in the Greek market – one of the most rapidly growing European markets – but also in the wider market of Southeast Europe.

Today PPC S.A. by fully mobilizing its capacities, PPC S.A. proves to be a pioneer and state-of-the-art power corporation with social responsibility and environmental awareness, which creates new values for its Shareholders, Personnel and stakeholders.
