

Examination instructions

Before the examination:

- Please do not look at the examination questions before you are instructed you can do so.
- The assistants will check IDs just after the beginning of the examination. Please bring your student ID (Legi) and put it on the table in front of you.
- You will receive 2 copies of the questions: The official solution booklet (in English, with space to write your answers in), and a separate sheet with only the questions in English. In case of disagreement, the questions in the solution booklet will be considered as official.
- Your answers to the questions have to be in English.

During the examination:

- You are allowed to bring a single side, A4 size, handwritten page. But this handwritten can be made on an electronic device (for example an ipad), and then printed. That is accepted as long as it is handwritten.
- You are not allowed to use any electronic aids (such as laptops, calculators, cell phones, etc.).
- Do not use any red or green pen for writing your solutions.

- Do not communicate with your colleagues. If you do not understand a question, please ask an assistant.
- Justify your answers. Correct final results will receive full credit only if the way in which the result was reached is documented.
- Only answers written in the official solution booklet and (if needed) the official additional solution sheets will be graded. Number all additional solution sheets and make a corresponding entry in the table on the solution booklet.
- If you finished writing on a sheet, turn it upside down and put it aside.

At the end of the examination:

- Stop writing and remain seated until instructed that you are free to leave.
- The assistants will collect the official solution booklets and any additional solution sheets. Please hand in all exercises - also the ones you did not answer. The only examination material that you are allowed to take with you, are the additional question sheets.
- Make sure that all your solution sheets are collected by the assistants.
